Formal Comments from Oregon Department of Forestry

George Sheppard on 1/29/2025
1) All streams within harvest area are considered Small Type-Np and must be buffered with a 35' R-ELZ. R-ELZ buffers allow merch timber to be harvested up to the high water mark on Type-N streams, however understory vegetation and <6" conifer must be retained within 35' of stream on both sides. 2) No conflict with other protected resources. If you have any questions regarding stream RMA's please contact George Sheppard at 541 471-4243. 3) Per written (email) request by landowner, 15-day waiting period is waived.
